

Tilton Playing Field - Dog Exercising

At its the February meeting of the Tilton on the Hill Playing Field Committee the issue of *dog excrement* was discussed, with some present believing that this continues to be a problem on the field.

A *trial period*, during which **dogs would be banned from the Playing Field** was proposed and supported by the majority present.

There was lots of discussion, and some disagreement, and so the Committee agreed to ...

- *monitor the situation* in March and April
- *seek views* from the village and consider *previous correspondence* on the matter
- *decide* on whether to implement the proposed ban on dogs at the next meeting - 22nd May

The Parish Council and Playing Field Committee want to ensure that all can see the proposal and all can contribute to the discussion before the Parish Council decides on the matter in May.

A series of short documents relating to Dog Policy on Tilton Playing Field, including the proposed policy, and an opportunity to let the Parish Council know your views before the May meeting are here:

<https://jsndyks.github.io/tiltonField/dogPolicy/>

Please check these pages to inform your thinking and follow the link to let the Parish Council know your view as we assess the policy on the exercising of dogs on the field and decide on the policy.

Do come along to the meeting on at the where the Playing Field Committee will advise the Parish Council.

22nd May

Village Hall @ 7pm
